

**2015 NMNPC Conference Speaker Evaluation Summary  
Program ID 1503147- Monday April 27, 2015**

Speaker	Expertise & Presentation Effectiveness*				
	Excellent	Good	Average	Fair	Poor
Wayne Kuang	78.0%	19.0%	4.0%	0.0%	0.0%

Comments:

1. Most valuable presentation was Male incontinence [Kuang & Percifull]. I agree many men suffer in silence due to their urinary symptoms and there are many treatments available to them
2. Male incontinence presentation provided new information [Kuang & Percifull].
3. I really enjoyed Dr. Kuang's presentation, he was very informative and fun to listen to, but I really need more info on what to do with my patients at the clinic setting, those who do not have insurance or the means to pay for the procedures that he does.
4. Male incontinence beyond anti cholinergics [Kuang & Percifull]. I was not aware of the choices they outlined. I now have more information to advice my clients and more encouragement.
5. The Male incontinence presentation [Kuang & Percifull] was very informative
6. Urinary male incontinence very good [Kuang & Percifull].
7. Wayne Kuang, MD – new information.
8. Male incontinence [Kuang & Percifull], both presented with enthusiasm.
9. Dr. Kuang was an excellent representative for his specialty – upbeat and informative! His topic is timely and refreshing to hear about non-pharmaceutical options!
10. Wayne Kuang--- useful updates and great presentation.
11. The last speakers [Kuang & Percifull] addressing male incontinence were excellent, introducing new knowledge with expertise, enthusiasm and humor.
12. The male incontinence and medications for it was helpful [Kuang & Percifull]. Also, helpful to know there are surgical managements.
13. Wayne seemed to really be informed, and had a passion for his field. It really made a difference when the presenters were both expert, highly engaging and had high level of expectation for the audience.
14. Dr. Wayne Kuang excellent presenter who brought new insights and enthusiasm for NPs.
15. Dr. Kuang and Candace Percifull. I learned a lot from this presentation
16. Male incontinence [Kuang & Percifull] – lively presentation and in an area which is not routinely covered
17. Male incontinence [Kuang & Percifull]. I have a lot of males in my practice and the information will be used almost daily

18. Really enjoyed Wayne Kuang & Candace Percifull – they did an excellent presentation and made an not so interesting subject, very interesting!
19. Incontinence options [Kuang & Percifull] – update of what community is doing.
20. Male incontinence {Kuang & Percifull}. Limited knowledge on this subject.
21. Dr. Kuang – I now know there are various options for men with incontinence problems and they don't have to settle for a decrease in the their quality of life due to their medical issues
22. I learned several new treatment ideas for men who present with urinary incontinence in SNFs and long term care facilities [Kuang & Percifull]. Previously thought that there was no treatment for their incontinence. I found a wealth of "new" information in his talk; information that may help men that I see in SNFs and in long term care that have urinary incontinence that we may have thought was permanent and untreatable.
23. Kuang & Percifull. Obviously interested in their topics and clearly shared important points/clinical pearls.
24. Dr Kuang, great information and dynamic speaker.
25. Male incontinence was very informative [Kuang & Percifull]. I work with a lot of male patients and I sometimes find male health concerns a challenge.
26. New information on male incontinence [Kuang & Percifull].
27. Dr. Kuang's presentation style was fabulous, he was at ease and his pace and loud voice made the presentation enjoyable. He didn't try to present too much information which was helpful.
28. Male incontinence {Kuang & Percifull}: excellent presenter and funny.
29. Dr. Kuang was excellent good presentation style and new information.
30. Dr. Kuang. Male incontinence – learned new treatments for male incontinence.
